

Payment Management

eSimplicity

e-Simplicity is a suite of products from Facta Vera that provides a secure, cost effective and flexible solution for all your present and future payment processing, presentment and automation needs. It elegantly bridges the gap between paper-based and electronic payments. e-Simplicity allows a gradual conversion, rather than an all or nothing approach that holds you back from reaping the benefits of electronic disbursement and presentment. e-Simplicity integrates with all major systems, as well as industry specific or custom solutions.

- Support for all payment types through a single system
- Streamline your processing with MICR Cheque Printing
- Reduce payment costs through electronic payments
- Deliver electronic remittance notification and presentment
- Payment imaging and integration
- Handle multi-currency payment standards
- Take advantage of available bank services
- Automate your reconciliation
- Improve your process security through payment approval and management
- Full scheduling and tracking of all payment activity
- Generate custom reporting
- Format and routing for internal/external/remote printing, outsourced check print & mail providers, ACH, wire to banking partner and third party providers
- Delivery of secure electronic payroll advice and notifications
- Comprehensive fraud protection
- Integration with all the major ERP, AP and back office applications
- Rules-based workflow
